

RUTUJA KHANDE

AI & Data Science Engineer | Full-Stack Developer | Machine Learning

Nashik, Maharashtra | 8080068187 | rutujakhande99@gmail.com | Portfolio | LinkedIn

PROFESSIONAL SUMMARY

Artificial Intelligence & Data Science undergraduate (CGPA 8.53) with hands-on experience building full-stack web applications, machine learning models, and AI-powered systems using Python, React, Django, and Flask. Skilled in designing and deploying end-to-end projects spanning frontend, backend, databases, and NLP/ML pipelines, with practical exposure to RAG and LLM-based application development. Seeking a Software Engineer / AI Engineer role to apply strong problem-solving, engineering, and collaboration skills in a fast-paced product environment.

TECHNICAL SKILLS

Languages: Python, C, C++, SQL, JavaScript

Frontend: React.js, HTML5, CSS3, Bootstrap, JavaScript

Backend & APIs: Django, Flask, REST API Development, CRUD Architecture

Databases: MySQL, MongoDB, SQLite

AI / Machine Learning: Scikit-learn, Machine Learning, Deep Learning, Natural Language Processing (NLP), Retrieval-Augmented Generation (RAG), LLM API Integration

Tools & Platforms: Git, GitHub, VS Code, Power BI

Core Competencies: Data Structures, Data Visualization, API Integration, Agile Development, Problem Solving, Teamwork

PROFESSIONAL EXPERIENCE

Data Science Intern — Sumago Infotech Pvt. Ltd.

March 2026

Onsite

- Built and evaluated machine learning models in Python using Scikit-learn to solve real-world classification and prediction problems.
- Applied deep learning and Natural Language Processing (NLP) techniques to process and analyze unstructured data.
- Collaborated with the data science team to translate business requirements into technical model pipelines.

Cybersecurity Intern — White Band Associates LLP

Jan 2024 – Apr 2024

Onsite

- Investigated social engineering attack vectors, including phishing and clone-page techniques, to identify security vulnerabilities.
- Developed simulated phishing campaigns to assess and strengthen organizational security awareness.

PROJECTS

Argumania – AI Debate Coach | React, TypeScript, RAG, LLM APIs

April 2026

- Engineered a full-stack AI debate platform with real-time AI opponents and a six-agent evaluation pipeline for automated scoring.
- Implemented Retrieval-Augmented Generation (RAG) for real-time fact-checking, improving argument accuracy and reliability.
- Designed an automated feedback system delivering personalized performance insights to users.

Krishiment – Farmer-Centric Web Platform | React, Django, MongoDB, SQLite

Nov 2025

- Built a full-stack web application connecting farmers with local laborers and real-time crop pricing data.
- Developed secure REST APIs for an equipment resale marketplace enabling second-hand farming equipment trading.
- Integrated third-party APIs with MongoDB and SQLite to manage dynamic, high-volume agricultural data.

SplitTrack – Expense Tracking Mobile App

March 2026

- Designed a mobile application to track personal and group expenses, automating borrow/lend balance calculations.
- Implemented UPI-based payment integration to streamline peer-to-peer settlements.

Community Management System | HTML, CSS, JavaScript, Flask, SQLite

April 2025

- Developed a full CRUD-based web application to manage community and faculty coordinator records.
- Built responsive interfaces with a Flask backend and SQLite database for efficient data handling.

EDUCATION

B.Tech, Artificial Intelligence & Data Science — K. K. Wagh Institute of Engineering Education & Research, Nashik

2024 – Present

CGPA: 8.53

Diploma in Computer Technology — Government Polytechnic, Nashik

2021 – 2024

Percentage: 89.65%

SSC — K.R.T. High School, Vani

2021

Percentage: 97.40%

CERTIFICATIONS

- GenAI Powered Data Analytics Job Simulation — Tata / Forage (April 2026)
- Python Fundamentals — Infosys (March 2023)
- Fundamentals of Information Security — Infosys (October 2023)

LEADERSHIP, ACHIEVEMENTS & ACTIVITIES

- YDF Scholarship Recipient | 2nd Runner-up, AI and Innovation Sprints 2026 & Project Based Learning Competition — Phoenix Club
- 5th Rank, Hack The Flame 2025 — V. P. Pratishthan's College of Engineering & Visual Arts, Mumbai | Participant, AVISHKAR Project Competition
- Member, Computer Technology Student Association | Campus Ambassador, Techkriti IIT Kanpur | Volunteer, NSS & E-Yantran CSI, KKWIEER
